PROFESSIONAL SUMMARY

Research Scientist with 14+ years of experience. Skilled in Spark, R, NLP.

PROFESSIONAL EXPERIENCE

AI Researcher | Tesla | 1 years
• Led team of 10 engineers in developing new features
• Improved system performance by 39%

Business Intelligence Analyst | Coinbase | 2 years
• Led team of 11 engineers in developing new features
• Improved system performance by 75%
• Reduced costs by $361K annually

Data Architect | Robinhood | 1 years
• Led team of 3 engineers in developing new features
• Improved system performance by 48%
• Reduced costs by $461K annually

Machine Learning Engineer | Intel | 3 years
• Led team of 5 engineers in developing new features
• Improved system performance by 21%
• Reduced costs by $408K annually
• Launched 7 major features serving 2303K+ users

TECHNICAL SKILLS

Spark, R, NLP, Pandas, Feature Engineering, Tableau, Statistics, Python, Keras, Machine Learning, Data Visualization

EDUCATION

Bachelor of Engineering in Software Engineering
MIT | Graduated: 2020 | GPA: 3.85
